

Incise to purchase. A very reasonable amount of the very large supplies of Cotton that are now on hand and sent into the interior from this market, and the demand for the small demand that exists for manufactured goods has been augmented in the shapes of the various articles of food in China, rice, flour, sugar, tea, &c., which are at the price at which it can be purchased in the market, and the wholesaler of food necessarily takes his cheap and plenty, which offering are in demand, and the market is accordingly, thereby, eroded a demand for the same.

There is little doubt, but that this year of plenty, as it may be called, for China, will be followed by a year of dearth in the great commercial market of the empire that draw their supplies from this and other ports, & on a more firm and satisfactory basis, will be more confident, make more money, and, in consequence, there will be a larger demand for consumption. These are, perhaps, that so powerfully effects the property of land and commerce as the cheapness and abundance of food, and the want of stormy outbreaks, and that is so closely allied to the commercial interest of a thickly populated country like China.

Transactions report to-day, show that the Chinese, and the English, and Mr. ADAMSON, ZIMMERMAN, and Mr. ADAMSON, are the admitted Partners in our Firm, which Mr. FARNERICK C. ADAMS seems to sign for.
